

Call for 2014 DESY-ONACPR Fellowship Applicants

Research Laboratory: DESY

Division/Group: FH/ATLAS

Supervising scientist: Dr. Michael Medinnis

Email/Phone: Michael.medinnis@desy.de +49-40-89983008

Research Field: High Energy Physics

Position: Postdoctoral Research in analysis of ATLAS data

Research Area:

The ATLAS/DESY group is involved in the analysis of data taken by ATLAS in several areas, including Standard model analysis, the Higgs boson and the Top quark. The successful candidate will be expected to join one of the research groups and contribute to the analysis of the data to be taken in 2015. In addition, he or she will be expected to contribute to the maintenance and operation of the fast monitoring and calibration software of the ATLAS silicon strip detector (SCT) for which ATLAS/DESY is responsible.

For more information please visit:

<http://atlas.desy.de/>

Specific Requirements:

PhD in particle physics
Experience in the analysis of particle physics data
Experience in the operation or calibration of particle physics detectors
Good command of C++ and ROOT

Work Place: Hamburg

Earliest Start: November 2014

Language

Requirement: please note that we require for all candidates proven records of English, e.g. CAE certificate or other certificate with the same level.

Application code: DESY/2014/15

Further Remarks:
